Mis. Spescer Cooper—Editor of
The Herald:—I sek permission
for a short space in your very valuable paper to insert a letter containing my views on the subject of
Democracy. I do not enter into
this subject as one skilled in the
affairs of politics, but as one who
is a Democrat in all that the word
Democrat means. Though I be a
mere boy who has never had the
honor of casting a single ballot for
any man, yet I have a longing for
that day when I can stand a peer
and cast a ballot against the maligners of the Democratic party.
It is reported that G. W. Carson
is a candidate on the Republican
ticket for County Judgo against
the sparkling, witty, genial, bighearted and well-known G. T. Center, the regular Democratic nominee. It sufprised me very much
to hear that Mr. Carson, a man
who knows comparatively little
about the transactions of legal affairs, was a candidate for so res-

"George Carson can beat your nominee." I am thankful that your beloved peer has not beat any Dymocrat in recent years, and I know that you will see many a sun rise and set, hear many a thunder-clip and endure many hot summers and the cold zephyrs of many winters before your dear brother will be able to "down" a single nominee in this county. He may have been very popular hitherto, but greatly fear that the gentleman has lost his grit, and after the November election he will be politically entombed.

his grit, and after the November election he will be politically entombed.

A. T. Combs, Democratic nomines for Sheriff, is as clover a man as ever breathed the pure atmosphere of Eastern Kentucky, and no person in need ever went from his door empty handed. He is as brave as a lion and as gentle as a lamb. He is booked as a winner, and will make a Sheriff of whom the people of Wolfe county will be proued.

I want all the Democratic nominess elected, but that which should interest us most is that of Congressman to represent this district in the 54th Congress for the United States. Joe M. Kendall, our standard bearer, needs no introduction at my hands. His name is a byword throughout Eastern Kentucky. Almost overybody is for him—men, women and children. I appeal to the young men of this district to rally around the standard and help to elect our gallant Joe by an overwhelming majority. I ask the fathers for the sake of their sons to help carry the grand old banner of Democracy to the highest pinnacle of fame.

With three cheers for our Joe and the rest of the ticket, I am Democratically yours. Tyro. Campton, Oct. 15, '94.

corded and Fees Charged-St Inspector Garduer Catches on to the Swindlers.

ANOTHER SWINDLE ATTEMPTED.

State Inspector and Examiner Gardner made a report on the 10th inst. concerning his investigation of the books of several Magoffin county officers. The fictitious land assessment scheme, it will be seen, has been worked thoroughly there, and the officers are shown up in a bad light. The Inspector's report, which will likely lead to the indictment of all the parties, is addressed to the Governor, and is as follows: "I have the honor to further report that since making my report to you on the fraudulent assessment and sales of so-called nou-resident lands in Magoffin county, I have procured the affidavits of some of the citizens of the county for the purpose of ascertaining the real parties to the fraud, and respectfully submit the following statement: "The facts, as far as I can ascer-

advice and assistance of others to aid him in the discharge of the duties of his office, and was led into the fraud through ignorance by the County Clerk and Deputy Sheriff Howard.

"For 1838, the first year of Howard's term as Deputy Sheriff, the county has a seasesed at a total valuation of \$4,456,496; since the detection of the fraud the county has been assessed for 1894 at a total valuation of \$43,596,496; since the detection of the fraud the county has been assessed for 1894 at a total valuation of \$835,993, a falling of in value of \$8,599,690.

"I will give you one instance as a sample of the manner in which these offices are conducted. A non-resident bona fide owner of a tract of land listed it in 1802, paid the taxes and the land was sold and bought in for the State and the Sheriff cridited by the same that the same to cliect the redemption money, yet on February 26, 1894, he wrote the party: "The amount of taxes now due on your 250-acre tract of land in this county for 1893 amounts to \$30,56. Will be glad to receipt you for the same," "On March 14, 1894, he again wrote same party, saying: "The statement of taxes given by me is a true oze, as shown by the records of my office; it includes fees, costsete.," when in fact the taxes, including all costs of sule, were \$6,88. It appears from the same letter that County Clerk Hammond had collected some taxes and failed to account for them, and the Sheriff goes on to say in his letter: "I will see that your money is your agent of manager to take charge of your land, and if swell and the same heter that County of the money to you. We have laws in this county for the protection of such, and it is my duty to see that they are enforced, and I will see that your money is paid over to the State or back to you. Now, before doing this, I would like for you to appoint meyour agent to take charge of your fand, and if you have not got an abstract I will get one up for you in and, and if yo

CLOSE OF THE CRIMEAN WAR.

Date of the Treaty of Feace and Horner Mark Deeds Were Recorded.

The formerly ratified treaty of peace was brought to Londen by William Staart, first attache to the British embassy at Paris, on April 29, 1856. Sunday May 4, was observed as a day of general thanksgiving to almighty God for the preservation of peace; and on Monday the 5th, it was formally provided to the common solemnities. Addresses to the crown, approving of the peace, were carried in both houses of parliament on the evening of that day; and on the 8th both houses cordially voted "thanks to the army, navy and marines employed in both houses of parliament on the evening of that day; and on the 8th both houses cordially voted "thanks to the army, navy and marines employed in the operations of the late war." The feelings entertained toward theme who foughtand bled in the Crimes by the queen, the government and the people of England are also placed on 2 manuar's, which will be perpetuated as long as the language exists.

"Since the period," said the noble secretary of war, "when the army first quitted the shores of England, there has been no vicissitude of war which it has not been called upon to encounter. It was assailed by cholera shortly after its arrival in Turkey. Then was proved that moral as well as physical courage pervated its ranks. Led to the field, heavy olds were on the cenny's side. It carried on, under difficulties almost incredible, a siege of unprecedented duration, in the course of which the trying duties of the trenches, privations from straitened supplies, and the fearful diminution of its numbers from disease neither shook its courage nor impaired it diseipline. Notwithstanding that many a gallant commander who led the field his public career as a soldier, her majesty's troops never illuched from their duties, nor disappointed the sanguine hopes of their country."

After exposure to the action of the air for a certain time the original color returns, but by that time they have passed out of the dealer's hands. The fraud was soon found out by the trade, and they now guard against impositions to the color of the col and they now guard against immestions of such a character by means of various tests. Of these the most generally used are the hot water bath or frietion. If a dyed stone be left in hot water a few minutes it resumes its original hue; or, if the gen be rubbed sharply on a towel, or even on the coat sleeve, its normal color can be detected. These tests are simple and efficacious and are in daily use.

AN EGYPTIAN CUSTOM.

In Mystified Heredotias. But Modern Investigation Fully Explains It.

More than one thousand years ago Heredotus observed a remarkable custom in Egypt, says Prof. Drummond. At a certain season of the year, says the Washington Post, the Egyptians from the wild palm, and, bringing them back to their gardens, waved once the flowers of the date palm. Why they performed this ceremony they did not know, but they knew that if they neglected it the date erop would be poor or wholly lest.

Heredotus offers the three transfers of the work of the date of the work of the date of the work of the date. Heredotus offers that these branches there came from the desert certain flies possessed of a "vivific virtue," which somehow lend an exuberant fertility to the dates. But the true rationale to the incantation is now explained. Palm trees, like human beings are male and female. The garden plants, the date bearers, were females, and female that the true rationale to the properties of the properties of the fertilizing of the branches over the females meant the transference of the fertilizing pollen from one to the other.

Vice-President Stevenson spoke a crowd of 1,500 people at Paris, putting in every day cratic success, and has large crowds wherever he goes.

Fears are entertained by shipping men of Port Townsend, Wash, that se the steamer Ivanhoe has been lost off Cape Flattery, as wreckage was seen near that place and she is over twenty days out from Seattle.

Col. Lamont, Secretary of War, is responsible for the announcement that President Cleveland de sires the election of Senator David B. Hill as Governor of New York. If this be true, Mr. Cleveland is even a bigger man than the country gives him credit of being, as he smothers personal feeling for party success.

Within the last week William B. Allison, William McKinley, Thos. B. Reed and David B. Hill have been "cheered as the next Presi dent." There would be something alarming in this were it not for the fact that there is a wide difference between being "cheered as the next President" and being the next President.

Gov. McKinley will address the cople of New Orleans on the 20th inst., and the subject of his har-rangue will doubtless be: "The Hardships of the Louisiana Sugar Planter Since the Democratic Party Cut Off His Bounty." As they only got about \$20,000,000 from the dear people last year, they are now in sore distress.

John Sherman said a few days since: "I am not now and never was an extreme protectionist." An impression prevails that the Mc-Kinley law was the culmination of extreme protection in this country, and that those who framed, sup ported and enacted it were extreme protectionists, but the Senator appears to have exclusive information that they were not. "No du-775. pears to have exclusive interest to that they were not. "No duties," he continued, "should be layer led for protection that are not needed for revenue." Formal commendation of the Ohio Governor's tariff cannot take the sting out of this

A QUESTION OF FIGURES

GENTLEMEN:—According to the official settlements made by the Sheriff, on record in the office of the County Clerk, the tax levies FOR COUNTY PURPOSES during

the	pas	900	rour	years	are:		
1801			4	S		\$ 7,704	92
						 6,990	
						 7,576	
1894						 7,670	00

an average of \$3,820 per year. With the levy lately made the extra expenses of the county are ended, on improvements already made, and the county will be out f debt. On the basis of an exactly similar rate

and valuation for the future as in 1893 and 1894, and not allowing for an increase of any kind in either taxable property or adult male population, the poll tax and county levy would produce each year a county revenue of \$7,070. Deducting from that sum the amount Deducting from that sum the amount of the average extraordinary county expenses during the past four years, there would remain a surplus in the treasury of \$4,005 per year.

A proposition is to be voted on at the election on the 6th of November as whether or not the Fiscal Court shall be authorized to issue county bonds of \$25, and the proposition of the sub-county of the same of the sub-ridge bonds, under a contract that

whether or not the Fiscal Court shall be authorized to issue county bonds of \$25, to 000 for bridge purposes. By some the objection is made that such indebtedness would "ruin the county."

I offer for your consideration some calcibilations, which prove that without any addition to the taxable property or population of our county we can, on the basis of an average of the first four years and without any addition to the taxable property or population of our county we can, on the basis of an average of the first four years ayo off the principal and interest of \$25, 000 of bonded indebtedness within nine years after the time the bonds would begin to carry interest, and have left in the county treasury nearly \$2,000 in money.

Soft in the taxable property or population of near now strongly infavor of our aidit g in building bridges that could be used jointy by the general public and the railroad, with the total fature cost of maintenance and repair to be paid by the railroad company.

secure twenty six miles of main line of railroad in our county, and the bonds or the cost derived from their sale is not to be delivered until after such railroad is completed and in operation.

Now having demonstrated that Morgan county, unaided, could pay off the \$25,000 in nine years, I propose to show you next week what the results would be if the railroad was in operation, and the soal mines being worked.

To be ready to appreciate the force and effect of my next "Question of Figures," I request you to familiarize yourselves.

The speech of Henry Godsey was one of the ablest ever delivered here. He maintained his high reputation for oratory. He has won laurels for limself and Eastern Kentucky on many hotly contested fields, and his star is still in the ascendant—Salyersville or. Jackson Hustler.

The Morgan County Messenger nomi-

The Morgan County Messenger nominates our late fellow citizen, Spencer Cooper, to represent Wolfe and Morgan counties in the next Legislature. Hon. J. W. Steele, of West Liberty, Morgan county, was the representative of those two counties in the last House and very ably did the important work necessary, but it seems that there is an understanding that Wolfe is to select the next member. The nomination of Mr. Cooper, coming as it does from Morgan, is not only eminently proper, but eminently wise as well. Mr. Cooper is a clean, strong, intelligent, brave Democrat, one who would do credit to any Legislative district in the State.—Senator John O. Hodges, in Lexington Observer.

Rev. Tom Hopkins will preach at the

Hodges, in Lexington Observer.

Rev. Tom Hopkins will preach at the
Caskey school-house on Wednesday, the
26th inst. Mr. Hopkins is the Republican candidate for congress, though, so
far as we are informed, he has not made
a political speech, sluce he received the
nomination. They say he knows nothing
whatever of national affairs, and wisely
gives publics a wide harth for that reawhatever of national affairs, and wisely gives polities a wide berth for that reason. But, after all, ain't he doing the proper thing in preaching the gospel to the Republicans? They need to be made better, and if Bro. Hopkins can master the herculian task of reform in their ranks he will have accomplished what time and the money wrested from the U.S. treasury have both failed to bring about. We therefore wish Bro. Hopkins God-speed in his efforts, and will shout amen with loud acclaim when he attains the result.

The Lyaching of Murderer Morton.

The Beattyville Fair closed Saturday afternoon, and the occasion was rendered memorable by Ocean Morton murdering Sherifl Simms. The Sheriff was attempting to arrest Morton on a charge of disorderly conduct at the Fair. Morton drew two pistols from his hip pockets and began firing The officer received three wounds, and died in twenty minutes. The murderer was taken to jail, and Sunday morning a mob of one hundred proceeded to the prison and very orderly demanded Morton, and upon the threat of using dynamite the Jailer turned his prisoner over to them. They went to a nearby bridge and quietly hung went to a nearby bridge and quietly hung went to a nearby bridge and quietly hung turned his prisoner over to them. They went to a nearby bridge and quietly hung Morton. The murderer's father was camped near the scene of the lynching, but so quietly was it done that he knew nothing of it for several hours. Morton killed a young man named Wilson, of this county, at Oakdale, Breathitt county, in July last, and was out on \$5,000 ball. The murdered Sheriff was buried at St. Helens with Masonic and Odd Fellow honors on Monday, and the remains of the murderer were shipped to Stanton, his home, for burial.

Free Scholarships.

e C. W. B. M. on October 3 granted two free scholarships to every one of the following counties, instead of one as

heretofore:

Menefee, Morgan, Johnson, Magoffin,
Breathitt, Lee, Powell, Perry, Knott and

Owsley.

All applicants must be of good moral character and worthy, and must be recommended by the County Superintendent of Schools and County Judge, when no examination is held and there are only the applicants. It is no examination. no examination is ago and uter-care only two applicants. If an examination is held, the two getting the best average grade will be allowed the scholarships, provided they are worthy and of good moral character and bear a certificate of examination from the Superintendent of Schools. These scholarships will be given to those who expect to attend the school the longest, other things being equal.

_Special Notice.

From the Eighth Annual Catalogue of Hazel Green Academy we take the fol-

very considerable reduction on "The very considerable reduction on tuition has been made on each grade upon the understanding that patrons pay promptly: Those who allow their bills to run unpaid through a term will not be entitled to this reduction. Tuition payable at the beginning of each term. No deduction made unless for sickness protracted two or more weeks. A liberal discount will be made where three or recognitions are sent from one family, if more pupils are sent from one family, if more pupils are sent from one ramity, it paid in advance. In cases where the pupils, or parents of pupils are indigent, and they are therefore not able to pay tution but desire to educate, they will be granted free fuitions upon application to the Principal of the school, such application to be accompanied with the facts; but both the Principal and the ap-plicants for such favors may have re-course for final decision to the Executive

course for final decision to the Executive Board."

It having been rumored that "the people of Hazle Green do not pay any tuition for the education of their children," and that the people living in the country adjacent "have to do all the paying," we want to state emphatically that the patrons in the town pay ten times more money for the education of their children at the Academy than the patrons living within a radius of five miles of the town. Let this be the last of such bosh. If you are not able to pay tuition, and want yout children educated, make the proper application or forever hold your tongue and never say "flavortism," especially when you do not know the facts.

We want all who wish to be in our school. There is no resson why any one should stay away. You only injure yourself and your children by not sending them to school.

Left over from last week.]

I was pleased to see "Wingless" come to the front on the railroad question, as he did in last week's suc, and I hope our people will think on what he has said and what he may yet vay on that subject, for he has had the experience of living where there were railroads, also where there was none; and he, like all others who have enjoyed the advantage of railroads agree, and say that if we want to revery resonable way encourage the building of railroads agree, and say that if we want out out you have prize that will bring money among us, and I suppose that every citizen in Morgan ounty will admit that we would be benefitted by the building of this road. The question then is, have such will we benefitted! This depends on how much we need it. Not many years ago our county did not have any steam flour and aw mills and lumber for building purposes was very expensive, the halling of very reasonable way encourse. If we benefitted by did not have any steam flour and aw mills and lumber for building purposes was very expensive, the halling frequently costing as much as the lamber. Our roads are bad enough now, but then they were much worse. If we got any flour we had to haulit over those rough roads, over roaks and mountains a distance of forty niles from Mt. Sterling frequently costing as much as the lambler. Our roads are bad enough now, the three to four days to make the trip. We can buy flour at the mill here to-day for about what the halling cost us then. Finally sone end was an as our very glad with the condition of the road of the bust then they were much wore. If we got any flour we had to haulit over those rough roads, over rocks and mountains a distance of forty miles from Mt. Sterling, requiring from three to four days to make the trip. We can buy flour at the sailling cost us then. Finally some enterprising men came among us and commenced "talking mill.," and some people in different localities offered inducements in labor, timber, land, etc. I well remember how some men talked about the matter. They said "if those men want to build mills they can build them without our help, for we will have to pay them for all they do for us."

Those same fellows are now bitter against the "railroad tax," saying: "If we vote the tax we will have to pay for all shipping just the same."

Now this class of citizens ought to have to carry their wheat on their backsjic Mt Scerling for every pound of four that they use. They cannot see, because they there were try the advantages of these things till they are obtained by the efferts of others. Other people are opposed to the tax because they think they will not end others. Other people are opposed to the tax because they think they will not end others. Other people are opposed to the tax because they think they will not end others. Other people are opposed to the tax because they think they will not end others. Other people are opposed to the tax because they think they will not end others. Other people are opposed to the tax because they think they will not end others. Other people are opposed to the tax because they think they will not end others. Other people are opposed to the tax because they think they will not end others. Other people are opposed to the tax because they think they will not end others. Other people are opposed to the tax because they think they will not end others. Other people are opposed to the tax because they think they will not end others. Other people are opposed to the tax because they think they will not end others. Other people have no more and no way to get it, you have a

of mins, so in the matter of rainouse. If we need them we can aff...d to off r inducements to get them.

Our floating timber that can be marketed profitably is all gone, but we have unknown wealth in our forests of hard timber, tan bark, etc., but as we cannot ship it many thousand dollars' worth of it is yearly rolled into log heaps and burned. It is said that we have the largest body of fine coal in the wyrld, and then how long will it take to work out all the building stone there is in this county? But all this amounts to nothing and brings no money into our county unless we get transportation.

Then don't you think we need a railroad, and need it bad? Then be sure to vote for the tax and get your neighbor to "go and do likewise."

This week.]

Mrs. Nannie Hays and her sister Bonnie Nickell, came in a few days ago from Illinois on a visit.

Charles H. Shepärd, representing the Equitable Life Insurance Co., of New York, was in town last week.

A. B. Pieratt, W. M. of Ezel Lodge No. 550, F. and A. M., is attending the Grand Lodge at Louisville this week,

Dr. J. F. Lockhart, W. J. Soitz, J. M. Pieratt and Miss Lixue Pieratt left here hast week for Lexington and other points. Our "little jeweler" last week sold to Miss Ansie B. Pieratt one of the pretient little watches that we know of in the mountains.

If our stock men get sale for all the stock that passed down last week, it would certainly indicate quite an improvement in the markets.

Mgl. W. J. Soitz, representing W. M. Kerr, & Ch., was in town last week. It is none of those hustling drummers that always sells to our marchants.

J. S. Nickel, now wass the farm that was once owned by B. F. Cockrill. While Mr. Cockrill owned and operated the farm he prophesied that at some future time this section of country would be visited by an unusual storm, and he accordingly planted a large grove of piese storm. Time with its many changes passed on, Mr. Cockrill sold the farm passed on, Mr. Cockrill sold the farm

trons. The Doctor congratulated the 31st district on having procured the ser-vices of the Missee Cann and Follanchee as teachers. He is certainly the right man in the right place, and our people will try very hard to induce him to serve another term. WINGLESS,
